Dear children,

"Curiosity is the key to invention"

Have ever wondered why the sky is blue? Why not green or even violet?

No? Well then it's about time to be curious.

You'll be asked all 'why?' questions around the world. You have to post your answers regards the same, without the help of Google or Internet.

All answers are welcomed! Though they are silly!

The right answers will be shared the next day.

Let's begin the fun and learn along!

Dear parents

Whenever a practical is assigned in Computer Science, students can use pc or laptop (if any) and if you don't use mobile phones.

Kindly do understand that we don't encourage the usage of mobile phones only so, when these practicals are given a time allotment will also be given.

So make students do the practical within the time limit.

Working on mobile, pc or laptop after the time limit is strictly not encouraged.
